Construct the Curriculum of Multidisciplinary Course (MDC)

(based on the following Parameters & Conditions)

Paper: -I Semester -I Credit: 3

<u>Paper Name:</u> ... Popular Culture, Mass media and Society

Parameters and Conditions to Construct MDC Curriculum:

5.1.3 Courses from Other Disciplines (Multidisciplinary) (9 credits):

All UG students are required to undergo 3 introductory-level courses relating to any of the broad disciplines given below. These courses are intended to broaden the intellectual experience and form part of liberal arts and science education. Students are not allowed to choose or repeat courses already undergone at the higher secondary level (12th class) in the proposed major and minor stream under this category.

- **i.** Natural and Physical Sciences: Students can choose basic courses from disciplines such as Natural Science, for example, Biology, Botany, Zoology, Biotechnology, Biochemistry, Chemistry, Physics, Biophysics, Astronomy and Astrophysics, Earth and Environmental Sciences, etc.
- **ii.** 2. Mathematics, Statistics, and Computer Applications: Courses under this category will facilitate the students to use and apply tools and techniques in their major and minor disciplines. The course may include training in programming software like Python among others and applications software like STATA, SPSS, Tally, etc. Basic courses under this category will be helpful for science and social science in data analysis and the application of quantitative tools.
- iii. Library, Information, and Media Sciences: Courses from this category will help the students to understand the recent developments in information and media science (journalism, mass media, and communication)
- iv. Commerce and Management: Courses include business management, accountancy, finance, financial institutions, fintech, etc.,
- v. Humanities and Social Sciences: The courses relating to Social Sciences, for example, Anthropology, Communication and Media, Economics, History, Linguistics, Political Science, Psychology, Social Work, Sociology, etc. will enable students to understand the individuals and their social behaviour, society, and nation. Students be introduced to survey methodology and available large-scale databases for India. The courses under humanities include, for example, Archaeology, History, Comparative Literature, Arts & Creative expressions, Creative Writing and Literature, language(s), Philosophy, etc., and interdisciplinary courses relating to humanities. The list of Courses that can include interdisciplinary subjects such as Cognitive Science, Environmental Science, Gender Studies, Global Environment & Health, International Relations, Political Economy and Development, Sustainable Development, Women's and Gender Studies, etc. will be useful to understand society.

Multidisciplinary UG Programmes: In the case of students pursuing a multidisciplinary programme of study, the credits to core courses will be distributed among the broad disciplines such as Life sciences, Physical Sciences, Mathematical and Computer Sciences, Data Analysis, Social Sciences, Humanities, etc., For example, a student who opts for a UG program in Life sciences will have the total credits to core courses distributed across Botany, Zoology and Human biology disciplines.

Communication Skills: Complex problem-solving: The graduates should be able to demonstrate the capability to:

• solve different kinds of problems in familiar and non-familiar contexts and apply the learning to real-life situations.

Critical Thinking: Critical thinking: The graduates should be able to demonstrate the capability to:

- apply analytic thought to a body of knowledge, including the analysis and evaluation of policies, and practices, as well as evidence, arguments, claims, beliefs, and the reliability and relevance of evidence,
- identify relevant assumptions or implications; and formulate coherent arguments,
- identify logical flaws and holes in the arguments of others,
- analyze and synthesize data from a variety of sources and draw valid conclusions and support them with evidence and examples.

Analytical reasoning / thinking: Analytical reasoning/thinking: The graduates should be able to demonstrate the capability to:

- evaluate the reliability and relevance of evidence;
- identify logical flaws in the arguments of others;
- analyze and synthesize data from a variety of sources; draw valid conclusions and support them with evidence and examples, and address opposing viewpoints.

Responsible Major Disciplines for Curriculum Development of the MDC Paper -I:.....

Curriculum of Multidisciplinary Course (MDC) -101 for UG Program

Title of the Course:	Popular culture, Mass Media and Society
MDC Paper Code:	MDC 101
	Semester = I
	(45 L)/Credit = 3
Objectives of the Course:	i) Provide an understanding of different types of media and forms of communication
	ii) Provide a basic understating of relationship between media and society
	iii) Analyse the changes in media, society and culture
Learning Outcomes of the Course	i) Students will be able to understand different types of media and forms of communication
	ii) Students will be able to comprehend the basic conceptions related to Media, Culture and Society
	iii) Students will be able to understand interface between media, popular culture and humanities and social sciences
	Course Content
Module: -1	i) Social Interaction and Everyday Life (15L)
	The study of everyday life: Features, Sociology of everyday life
	ii) Types of communication Verbal and Non-verbal communication;
	iii) Popular culture, High culture, Low culture.
	iv) Cultural studies as an interface between humanities and social sciences;
	v) Mass communication: Definition, Emergence; Modern technology and
	Mass Communication
Module: -2	i) Mass Media (15L)
	Emergence of Mass Media in the West;
	ii) Nature, characteristics and functions of mass media.
	iii) Mass Media and Mass Society, Impact of Mass media on society
	iv) Media: printing and publications, electronic media, radio, Television,
	cyberspace, virtual communication, internet, blogging.
	v) Media House: Emergence and Evolution in India; Globalizationa nd its
	effect on Media and communication
Module: -3	i) Advertising (15L)
	Definition; Emergence; Functions, Types
	ii) Ethics in Advertising
	iii) Role of Advertisement in Marketing,
	iv) Current Issues in Advertising,

	v) Women in Advertisement; Children in Advertisement
Suggestive Readings:	i) Aggarwal, Bir Bala. 2002. Media and Society First Edition, Concept
	Publishing Company
	Pvt. Ltd.
	2) Curran James, Gurevitch Michael, 1991, Mass Media and Society.
	London.
	3) Dey, Sayan and Ratnamala, V Media Culture Society.
	4) Giddens, Anthony. 1997. Sociology. Third Edition, New York: Polity
	Press.
	5) Hodkinson, Paul. 2016. Media, Culture and Society: An Introduction. SAGE
	6) Keval.J Kumar, 1994, Mass Communication in India,4th Edition, JAICO
	7) Mohapatra, Subas. 2017. Society and Culture in India: A Reader. The
	Orient Blackswan
	8) Nick, Stevenson, 1995. Understanding media cultures: social theory and
	mass communication, London: Sage.

Curriculum of Multidisciplinary Course (MDC) -201 for UG Program Cander Equity and Gender Equality

Title of the Course:	Gender Equity and Gender Equality
MDC Paper Code:	MDC 201
	Semester = II
	(45 L)/Credit = 3
Objectives of the Course:	i) An understanding of the basic concepts related to Gender, the norms and the processes that shape Gender perceptions and the importance of Gender equity
Course.	and equality
	ii) A comprehension of the various indicators of Gender inequality, and the
	institutions and processes that sustain it.
	iii) An awareness of the various Conventions, constitutional and legal
	provisions for Gender equity
Learning Outcomes	i) Have an understanding of the various concepts related to Gender, social
of the Course	norms and processes that foster gender inequality, and the importance of gender equity and equality.
	ii) Be equipped with the knowledge of various international conventions,
	Constitutional and legal provisions available for bringing about greater Gender equity and equality
	iii) Be aware of the concept, measurement and indicators of gender equity
	and gender equality and appreciate the value and importance of gender data and gender audit
	<u>Course Content</u>
Module: -1	i) Understanding Gender Equity (15L): Sex, Gender, Sexuality, Patriarchy,
	Gender Stereotypes
	ii) Gender Equity – Meaning and Definition; Gender Equality – Meaning and Definition; Gender Equity and Gender Equality - Relationship; The
	importance of Gender Equity and Gender Equality in society
	ii) Socialisation, Internalisation of Gender values
	,,
	iii) Gender Bias: Definition, Meaning, Impact
	iv) Devaluation and Marginalisation of women in society
Module: -2	i) Gender Equity and Legal provisions (20 L): International Conventions -

	CEDAW, Millennium Development Goals (MDG's), Sustainable
	Development Goals (SDG's)
	Development down (SDG 5)
	ii) Constitutional Rights of Women in India (Relevant articles of Fundamental Rights and Directive Principles), Protective Legislation for Women in India – The Dowry Prohibition Act, 1961; Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013; Protection of Women from Domestic Violence Prevention Act, 2005
	iii) Emergence of National Commission for WomenComposition, Powers and Functions; West Bengal State Commission for Women - Composition, powers and functions
	iv) All Women's Police stations, Vigilance Cell, Legal Aid, Family courts, ChildLine, Service Providers and HelpLines for Women and Children
Module: -3	i) Towards Measuring Gender Equity and Equality (10L): Gender
	Empowerment measure (GEM) – Meaning and Indicators
	ii) Global Gender Gap Index – Meaning and Indicators
	iii), Gender Disaggregated Data - Meaning and importance,
	iv) Gender Audit -Meaning and importance

Curriculum of Multidisciplinary Course (MDC) -301 for UG Program

Title of the Course:	Environment and Society
MDC Paper Code:	MDC 301
	Semester = III
	(45 L)/Credit = 3
Objectives of the Course:	i) This course is designed to allow students to reflect on the 'environment' as an object of sociological inquiry. It would orient them to the core debates of environmental sociology, different approaches within the sub-discipline and how these approaches may be used to understand environmental issues and movements in India.
	ii) The aim is to convey the fact that since environmental issues in contemporary times have come to assume utmost significance representing a complex interplay of several factors that are material, ideal and social in character; these linkages need to be analyzed from a sociological standpoint as they play out in our societies in varied forms
	iii) The themes running throughout this paper highlight the interactive and unfinished character of causality in environmental sociology, the central role of social inequality in environmental conflicts, the important influence of democratic institutions, the connect between the local and the global and finally the role played by the community at large.
Learning Outcomes of the Course	i) . An understanding of dynamic between natural and social worlds from a sociological perspective.
	ii) A grasp of fundamental principles and core theoretical debates of the discipline
	iii) An ability to contribute from a sociological stand point to any research endeavors or public policy conversations that assess causes, effects and possible solutions of environmental issues and problems.
	Course Content
Module: -1	i)Environmental Sociology (15 L): Emergence of Environmental Sociology, Nature and Scope; ii) Definition and Characteristics/Features: Nature, Ecology, Biodiversity, Environmentalism, Environmental Justice iii) Global warming, climate change – MNCs & international policies to curb environmental pollutions

	iii) Environmental movements in India, environmental policies in India after
	Independence
	v) Definition and features of Environmental conservation - Necessity and
	Challenges
M. Jl. 2	i) Theoretical beginnings (15 L): Urich Beck, Anthony Giddens
Module: -2	
	ii) Anthropocentrism, Deep Ecology,
	iii) P. Geddes: The Concept of city, The Out Look Tower and other Experiments,
	Gandhi: Approach to conservation of resources, Sarvadoya, Radhakamal
	Mukherjee: Ideas on Ecology and Environment
	iv) Eco-feminism : origin, Evolution, critique
	v) Eco-Marxism: Marxism and Environment
Module: -3	i) Environment and Development (15L): Issues: Deforestation, extinction of
	species, impact of developmental projects - dams, roads, rails, SEZs
	ii) Concerns: Exploitation of natural resources, impact of environmental
	degradation, need for sustainable development
	iii) Environmental protection – Chipko Movement, Protests in Kerala: Silent
	Valley, Plachimada, Kathikoodam, Narmada Bachao
